Public Works, Legal

The 2021 Biosolids and Backwash Solids Removal project will dredge and dewater approximately 2,000 dry tons of biosolids material from the Water Pollution Control Facility Aeration pond. Project also includes dredge, dewater and disposal of 400 dry tons of backwash solids at the Water Filtration Plant backwash pond. Dredging these biosolids and backwash solids is necessary to restore the volume to the treatment and storage ponds at each plant.

Contact person:

John Nottingham

In addition, staff discovered that by oversight the call for bids in this project occurred without staff first bringing an agenda item to council to authorize the call for bids. Accordingly, staff recommends that council ratify the call for bids that occurred.
