Fiscal summary statement:

The proposed Ordinance will provide funding for the Doyle Park Playground Replacement Project. The source of funds for the project is Capital Improvement Program 3 (CIP-3). The project cost estimate is \$300,000. These costs include all construction activities, contingency, tax, and all other costs associated with the project. This project is identified in the CIP-3 financial model.

Project summary statement:

Scheduled replacements to Parks playgrounds are necessary to keep them functional, enjoyable for customers, compliant with new standards, and to minimize maintenance costs. Playgrounds are typically replaced about every 15 years. The Doyle Park playground was built in 1987.

The playground is being designed for two age groups: 2 to 5 and 5 to 12-year old. It is also being designed with inclusive elements so people of all ages and abilities will be able to access the play areas, participate and be challenged. The playground design has been presented at both Doyle neighborhood meetings and Park Board meetings to allow input towards the goals and types of equipment for the new playground.

Playground replacement work includes demolition of the existing playground. The new playground will be relocated to the south of the existing location and construction will include a new rubber tile surfacing system, installation of the new playground equipment and certification of the design and installation. The work for this project is planned to begin in the Fall of 2021 and should take approximately six months to complete.

The Doyle Park Playground will be purchased using the King County Directors Association (KCDA) purchasing cooperative contract, in compliance with the City of Everett procurement requirements.
