Project summary statement:

The City of Everett is under an agreed order to bring its combined sewer outfalls (CSOs) into regulatory compliance by end of year 2027. The Port of Everett Combined Sewer Main is a required project as identified in the Port Gardner Storage Facility (PGSF) Engineering report. The project consists of 42” and 12” diameter combined sewer pressure pipes that will connect Lift Station #3 to the Port Gardner Storage Facility.

The project is ready to advertise for construction bids. There are no supplemental bidder requirements associated with this project.

Recommendation (exact action requested of Council):

Authorize the Call for Bids for the construction of Port of Everett Combined Sewer Main.
