

Automated traffic safety cameras: red light and school speed zone photo enforcement

Corey Hert
City Traffic Engineer
April 6, 2022

EVERETT
WASHINGTON

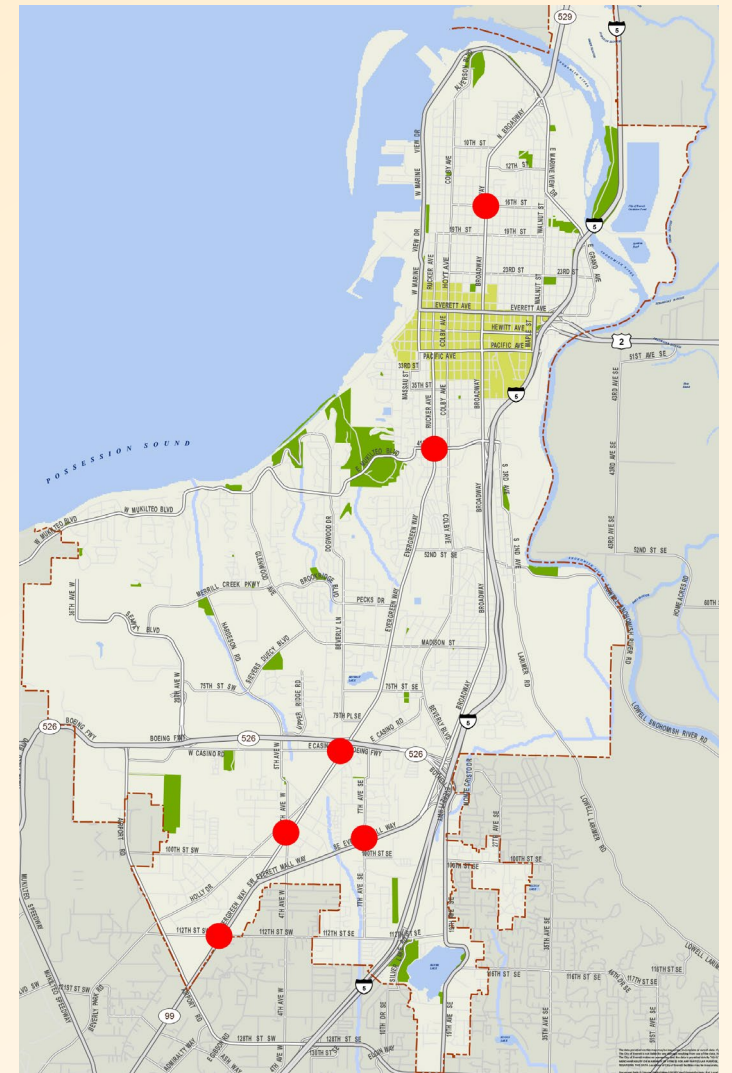

Revised timeline

- ✓ Authorization of request for proposals December 2021
- Council authorization to issue RFP April 2022
- Vendor proposals due May 2022
- Council award of contract July/August 2022
- Construction and program rollout 6 to 8 months

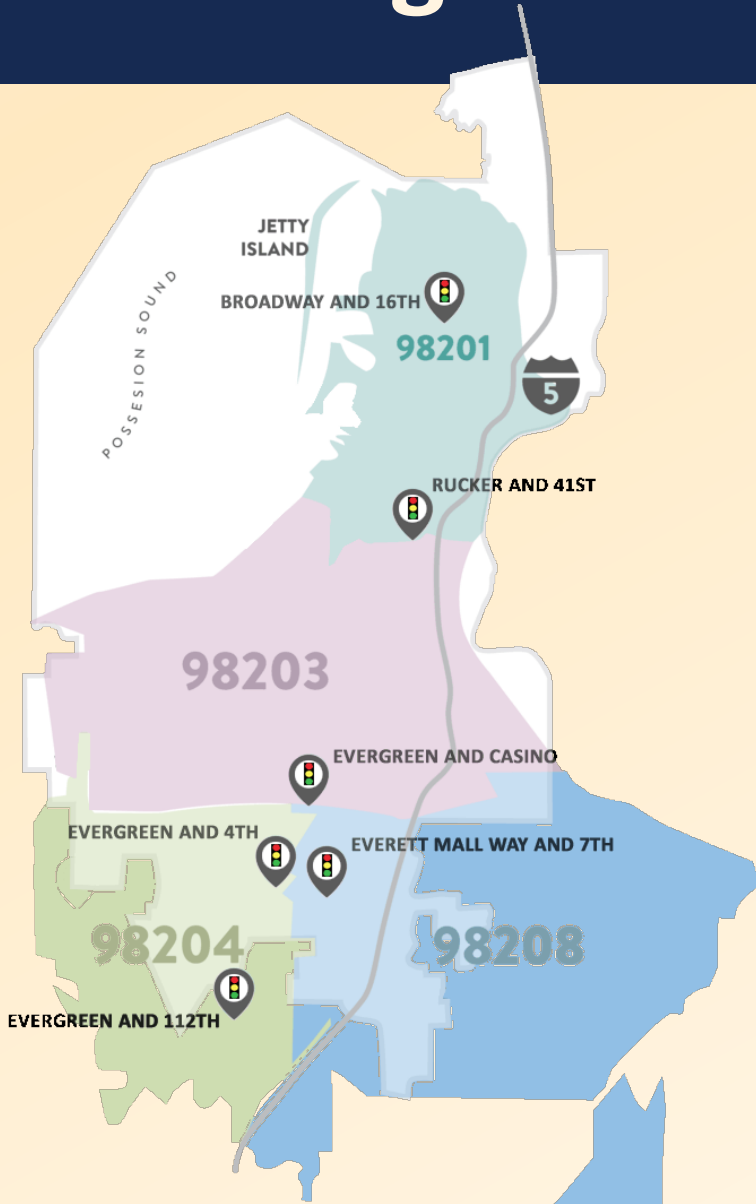

Request for proposals

- Red light photo enforcement at 6 intersections (9 approaches)
- School zone speed enforcement at one school zone (2 approaches)
- All inclusive monthly fee per approach
- Allows cancellation at completion of the term

Existing crashes

- From January 2015 to October 2021:
 - 6 intersections in the RFP
 - 69 angle crashes failure to obey the signal

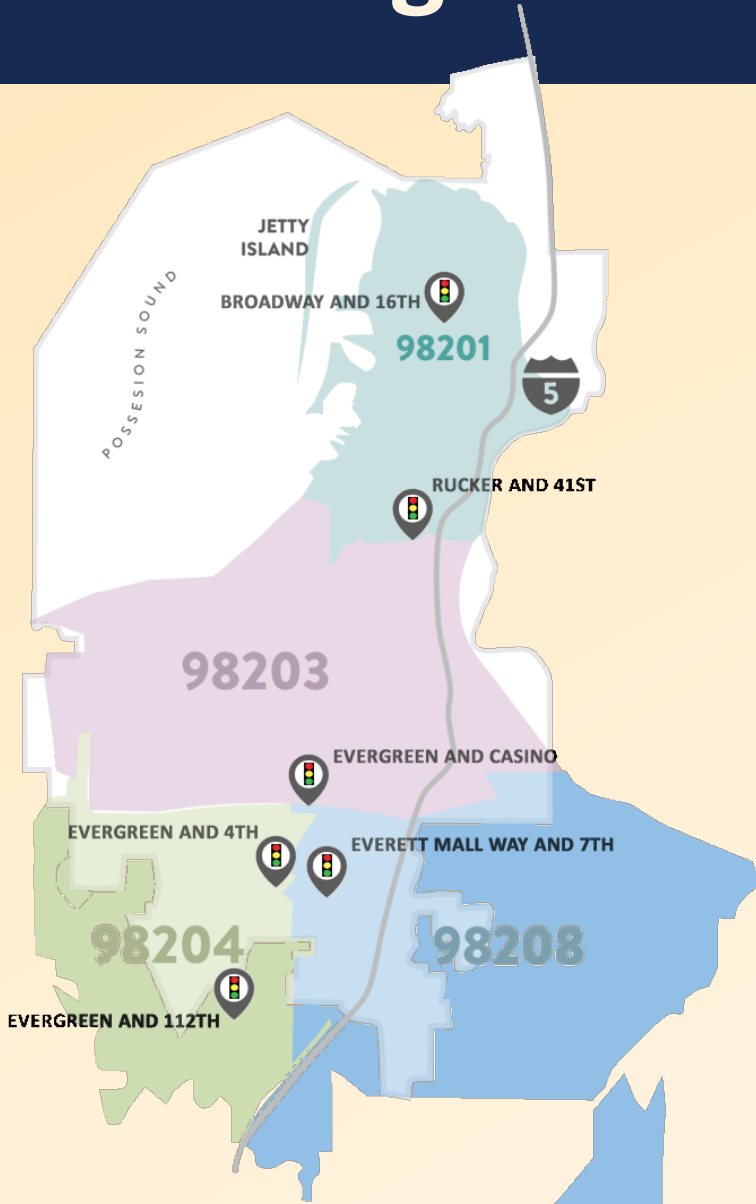

Address zip code	Failure to stop at traffic signal	Percentage	Not at fault	Percentage
98201	12	17%	13	19%
98203	13	19%	7	10%
98204	10	14%	12	17%
98208	11	16%	14	20%
Other zip codes	23	33%	23	33%

Existing crashes

- From January 2015 to October 2021:
 - 6 intersections in the RFP
 - 69 angle crashes failure to obey the signal

Address location	Failure to stop at traffic signal	Percentage
Everett city limits	33	48%
Outside city limits	30	43%
No address given	6	14%

Photo enforcement funding of safety projects

Photo enforcement annual revenue: \$1,375,000

Projected annual cost: \$1,167,000

Funds remaining for safety projects: \$208,000

Safety projects include school speed beacons, enhanced crosswalks, lighting, sidewalks, traffic safety enforcement programs, etc.

Thank you
