Fiscal summary statement:

Funding for the service bodies was approved in the 2021 equipment replacement budget and will be paid from Utilities fund 401. On April 21, 2021, Council authorized \$170,804.88 for the two service bodies. The order was placed immediately.

However, supply chain disruptions have caused the service bodies to be delayed until 2023. Due to the urgent need, Public Works and Motor Vehicle Division opted to purchase alternate service bodies from the supplier. These service bodies come at a higher cost but are lighter and will allow personnel to carry more equipment and tools on the vehicle. As a result, an additional \$65,743.88 will be expended to obtain these items in a timely manner. The new cost to the City is \$236,548.76.

The City has spent \$225,290.96 on this contract year to date. Year-to-date spend combined with these requested purchases will exceed the \$250,000 council authorization and award limit. Future purchases from this contract will be brought before council for the remainder of this year.

Project summary statement:

The table below identifies the service bodies to be replaced and a cost comparison.

Department	New Equipment Requested	New Unit #	Replacing Vehicle #	2021 Cost	2022 Cost
Public Works – Utilities	Service Body and Upfit	J0177	J0049	\$85,402.44	\$118,274.38
Public Works – Utilities	Service Body and Upfit	J0180	J0055	\$85,402.44	\$118,274.38

\$236,548.76

Initialed by:

Department head

Administration

Council President

These items are available for purchase from OSW Equipment & Repair LLC, located in Woodinville, Washington, through the City of Seattle competitively bid Contract #5537/COE #2022-012. Service bodies must be purchased from the Woodinville location in order for the City to use the City of Seattle contract.

The City has an Interlocal agreement with the City of Seattle that allows for purchases from its competitively awarded contracts in lieu of soliciting bids on our own.

Recommendation (exact action requested of Council):

Award and authorize purchase of two service bodies from OSW Equipment & Repair LLC from City of Seattle Contract #5537/COE #2022-012 in the amount of \$236,548.76, including Washington State sales tax.
