## BUSINESS TAX DIVISION

### **How to File and Pay**

#### **B&O Tax**

All businesses engaged in any business activity in Everett must be registered with [the Everett Business Tax Division](#). B&O tax returns may be filed online or by paper return. Businesses are assigned a filing frequency of quarterly or annual. Quarterly returns must be filed and paid by the end of the month following the quarter. Annual returns must be filed and paid by April 30 of the following year.

Penalties and interest are due if tax returns are not filed and taxes paid by the due date. Penalties and interest are charged as follows:

#### **Penalties:**

1 day – 1 month overdue:

- 9% (\$5 min.)

Over 1 month – 2 months:

- 19% (\$5 min.)

Over 2 months:

- 29% (\$5 min.)

#### **Interest:**

The current interest rate for returns filed after the due date is 3% annually. If the tax paid is less than the amount due, interest is added from the date of underpayment or due date until paid. You have 30 days from the

notice of such underpayment to pay the balance due plus interest.

### **Helpful Hints on Filing**

#### **Returns**

- Include all appropriate [Schedules](#).
- Failure to receive a tax form does not relieve taxpayers of their tax liability or late filing fees.
- Tax filings must be made for all active accounts even if no tax is due.
- Make check or money order payable to City of Everett. Do not send cash.
- Send your return to the PO Box listed on the Multi-Purpose Tax form or file online at [www.filelocal-wa.gov](http://www.filelocal-wa.gov).
- If status of ownership changes, you must apply for a new Everett business license.
- Advise the Everett Business Tax Division in [writing](#) of changes in address.

### **Gross Receipts**

The gross receipts B&O tax is primarily measured on gross proceeds of sales or gross revenue for the reporting period. Gross receipts include income from activity both within and outside the city of Everett regardless of your business' physical location. For reporting purposes, businesses have been divided into several classifications. Businesses

conducting multiple activities will report in more than one tax classification.

## **Gross Receipts Tax Classifications**

### **Manufacturing/Processing for Hire**

Manufacturing is the business of producing articles for sale from raw or prepared materials by giving these materials new forms or qualities, such as fabricating, processing, refining, mixing, packing, canning, etc. B&O tax is calculated on the value of products manufactured, determined by selling price. Processing for hire means the performance of labor and mechanical services upon materials or ingredients belonging to others so that as a result a new, different, or useful product is produced for sale or commercial or industrial use. B&O tax is calculated on gross receipts.

### **Extracting/Extracting for Hire**

Extracting is the taking of natural products, such as logging, mining, quarrying, etc. B&O tax is calculated on the value of products extracted, determined by selling price. Extractor for hire means a person who performs under contract necessary labor or mechanical services for an extractor. B&O tax is calculated on gross receipts.

### **Retailing/Retail Service**

Businesses that sell products and specific services to consumers are defined as retailers. Taxable retail services include those generally performed on property, such as repair, but not personal or professional services, such as

services performed by doctors, attorneys, or accountants. The B&O tax is calculated on gross receipts.

### **Wholesaling**

Sellers of products to persons other than consumers are considered to be wholesalers. The B&O tax is calculated on the wholesale selling price.

### **Printing/Publishing**

Publishers of newspapers, magazines and periodicals are taxable under this classification, as well as persons who both print and publish books, music, circulars, etc. Printing includes letterpress, offset-lithography, and gravure processes as well as multigraph, mimeograph, autotyping, and similar activities. B&O tax is calculated on gross receipts. Firms engaging in photocopying documents should report under the Retailing classification.

### **Services and Other Activities**

Business that provide personal and professional services, such as lawyers, doctors, financial institutions, real estate brokers, insurance brokers and solicitors, and accountants are subject to the B&O tax under this classification. Also, any business that is not subject to another B&O tax classification must report under this "catch-all" category. B&O tax is calculated on the gross receipts of the business.

Revenue taxable under the service & other tax classification will be apportioned using a two-factor (payroll and service-income) apportionment formula method. The [Service Income](#)

[Apportionment Worksheet](#) is available online.

## **Exemptions, Deductions, and Credits**
