

YOU Can Make a Difference.

VOLUNTEER

Pet waste contains bacteria that pollute our local waterways. That's why it's important to pick it up and put it in the trash.

The City of Everett has placed pet waste bag dispensers in public areas, trails and other open spaces to assist pet owners. With well over 50 dispensers, we rely on community volunteers to keep them stocked.

Do your part and volunteer today for this dispenser. We provide you with a dispenser key and the pet waste bags to replenish dispenser.

Arf! Our local streams and creeks will thank you.
