RE: Hot Mix Asphalt Overlay 2021 Project Night Noise Variance

Dear Ms. Fisk:

The City grants a variance to the noise ordinance, EMC 20.08, for the 2021 HMA Overlay work. In order to minimize traffic impacts during commute hours, this work must be performed at night. The variance allows nighttime work at the following locations:

Table with 2 columns: Street Name, Location Range. Rows include Evergreen Way, Broadway, W/E Casino Road, Pecks Drive, and 52nd Street SE.

The variance allows for up to 30 days of nighttime work between 10 pm and 7 am at each location during the construction window of May 11 – October 30, 2021. This variance applies to the contractor and subcontractors selected by the City of Everett for this project. To minimize impacts on residential and business properties, the following mitigation measures shall be in effect:

- Back-up alarms shall be directional broad band type alarms
• Trucks performing export haul shall have well maintained bed liners
• No construction work will be allowed between 6 pm and 8 am on Saturdays, Sundays or federally recognized holidays

Should you wish to extend this variance please submit a renewal request prior to expiration of this variance.

Sincerely, [Handwritten Signature]

Megan Munro
City of Everett Noise Administrator
