## Everett firefighters extinguish south Everett apartment fire

EVERETT, WA – Late Monday night, Everett firefighters were dispatched to a report of an apartment fire at Silver Point Apartments in south Everett – 12222 19th Ave SE. Multiple callers to 9-1-1 reported a fire in a third-floor apartment.

Arriving fire crews found an apartment fire with smoke coming from a third-floor apartment in the E-building. Firefighters were able to quickly contain and extinguish the fire with the aid of the building's sprinkler system, which kept the fire from spreading to additional units. Two other units suffered smoke and water damage.

All occupants safely evacuated the building on their own. An adult female occupant sustained non-life-threatening burns to her foot and was transported by private ambulance to Providence Regional Medical Center.

Thank you to Everett Police for their assistance at the scene and the mutual aid fire agencies - South County Fire and Snohomish Regional Fire and Rescue for their help.

The cause of the fire is under investigation by the Everett Fire Marshal's Office.

Everett Fire would like to remind our community to ensure they have working [smoke alarms](#) in their residence and a fire escape plan for their home. To learn more about creating a fire escape plan, visit the [National Fire Protection Association](#)'s website.
