Hi Everett planning department,

My name is Kyung Kung and I am Mukilteo city resident. We want you to know, we have very heavy traffic using Mukilteo speedway. Going out and in during rush hour or other times are always congested. I hope, you can review and see this can be reviewed further for other location. Because size may count by population, but we have ferry traffic that is adding heavily through out along with extra out source traffic for residents and their hospitality. I am not sure how this big of project can continue to add to our city when traffic is so bad. I am not working, so I don't use speedway traffic everyday. But it was pretty bad whenever I need to go out to Seattle. When there's an accident it is nightmare because we don't have other road to take. I hope, you can help city of Mukilteo resident's by looking at the traffic and decide otherwise.

Thank you so much for reading my message,

Warmest,

Kyung Kung
