

**Minority Statement on Amendment of Aggressive Begging Ordinance – to be inserted as a footnote on this item (Category 1, Strategy 1.1, Item #10 on p. 10 of draft report)**

Two Task Force members dissent from the proposed changes to the aggressive panhandling ordinance, expressing concern with the possibility of subjective enforcement and a desire to prevent criminalization of homelessness. They strongly urge the Mayor to re-think this item, as it will either move people toward more desperate measures or saddle the police with unenforceable ticketing.
