## **Expect increased construction activity at Thornton A. Sullivan Park starting Monday**

EVERETT, Wash. – Starting on Monday, March 27, 2023, the City of Everett Parks and Community Services department will be doing an increased level of construction activity in and around the playground areas of Thornton A. Sullivan Park at Silver Lake. This increased level is expected to last for the next several weeks as the renovation work continues.

The playground at Thornton A. Sullivan Park was closed in January 2023 to allow this work to begin. Look for upcoming announcements regarding the opening of the new playground and the Silver Lake Loop trail this summer.

The City of Everett appreciates the community's continued patience and understanding as improvements are made to this park.

Visit the Parks Projects page for more information: [everettwa.gov/2494/Parks-Projects](http://everettwa.gov/2494/Parks-Projects).
