RE: 2023 Pavement Maintenance Overlay – Noise Variance

Mike:

The City grants a variance to the noise ordinance, EMC 20.08, for the 2023 Federal Overlay work. In order to minimize traffic impacts during commute hours, this work must be performed at night. The variance allows nighttime work at the following locations:

Street Name	Cross Street Limits	Variance Type
41 st Street	Colby Ave to I-5	Night work allowed
40 th Street	41st St to Broadway	Night work allowed
Madison Street	Sievers Deucy Blvd to Jefferson Ave	1 hour early start for paving Night work for striping
Madison Street	Evergreen Way intersection	Night work allowed

The variance allows for up to 35 days of nighttime work between 10 pm and 7 am at each location during the construction window of May 1 – October 31, 2023. This variance applies to the contractor and subcontractors selected by the City of Everett for this project. To minimize impacts on residential and business properties, the following mitigation measures shall be in effect:

- Back-up alarms shall be directional broad band type alarms
- Trucks performing export haul shall have well maintained bed liners
- No construction work will be allowed between 6 pm and 8 am on Saturdays, Sundays or federally-recognized holidays

Should you wish to extend this variance please submit a renewal request prior to expiration of this variance.

Sincerely,

Megan Munro
City of Everett Noise Administrator
