## Attachment A

### Narrative Statement and Evaluation Criteria

All applications must be accompanied by a narrative statement describing how the proposal is consistent with the following applicable criteria. Staff can only recommend that a proposal advance if it meets the applicable criteria.

Description of the exact request	Amend Section 19.17 of the EMC to remove all references to a Port Compatibility Overlay or Port Compatibility Area, including removal of the Port Compatibility Area from Map 17-2.
Reason for the request	<p><i>As a resident of the Rucker Hill neighborhood I feel that I was not given adequate opportunity to voice my concerns to the city over the new Port Compatibility Area. This area designates the historic Rucker Hill neighborhood as a buffer zone to port noises and nuisances, and allows the port to run unencumbered as if its neighbors in Rucker Hill didn't even exist. The houses of Rucker Hill, and the Port, have co-existed together for over 100 years, but the new Compatibility Area designation from the city has removed the voices of the citizens of Rucker Hill. I urge the city to reconsider the Port Compatibility Area and allow the citizens of Rucker Hill an opportunity to voice their concerns over issues at the Port.</i></p> <p><i>Please also see Kristin Hall's submittal to the city under similar concerns.</i></p>
<i>Clearly and completely address the factors below for each amendment category selected in question 3</i>	
Comprehensive plan – text, goals, objectives, policies	<p>EMC <b>15.03.400(E)</b> The following factors shall be considered in reviewing proposed amendments to comprehensive plan policies.</p> <ol style="list-style-type: none"> <li>1. Have circumstances related to the subject policy changed sufficiently since the adoption of the plan to justify a change to the subject policy? If so, the circumstances that have changed should be described in detail to support the proposed amendment to the policy. <i>[Insert comments here]</i></li> <li>2. Are the assumptions upon which the policy is based erroneous, or is new information available that was not considered at the time the plan was adopted, that justify a change to the policy? If so, the erroneous assumptions or new information should be described in detail to support the proposed policy amendment. <i>[Insert comments here]</i></li> <li>3. Does the proposed change in policy promote a more desirable growth pattern for the community as a whole? The manner in which the proposed policy change promotes a more desirable growth pattern should be described in detail. <i>[Insert comments here]</i></li> <li>4. Is the proposed policy change consistent with other existing plan policies, or does it conflict with other plan policies? The extent to which the proposed policy change is consistent with or conflicts with other existing policies should be explained in detail. <i>[Insert comments here]</i></li> </ol>
Comprehensive plan – land use map	<p>EMC <b>15.03.400(D)</b> The following factors shall be considered in reviewing requests to amend the comprehensive plan land use map.</p> <ol style="list-style-type: none"> <li>1. The proposed land use designation must be supported by or consistent with the existing policies of the various elements of the comprehensive plan.</li> </ol>

	<p><i>[Insert comments here]</i></p> <p>2. Have circumstances related to the subject property and the area in which it is located changed sufficiently since the adoption of the land use element to justify a change to the land use designation? If so, the circumstances that have changed should be described in detail to support findings that a different land use designation is appropriate.</p> <p><i>[Insert comments here]</i></p> <p>3. Are the assumptions upon which the land use designation of the subject property is based erroneous, or is new information available which was not considered at the time the land use element was adopted, that justify a change to the land use designation? If so, the erroneous assumptions or new information should be described in detail to enable the planning commission and city council to find that the land use designation should be changed.</p> <p><i>[Insert comments here]</i></p> <p>4. Does the proposed land use designation promote a more desirable land use pattern for the community as a whole? If so, a detailed description of the qualities of the proposed land use designation that make the land use pattern for the community more desirable should be provided to enable the planning commission and city council to find that the proposed land use designation is in the community's best interest.</p> <p><i>[Insert comments here]</i></p> <p>5. Should the proposed land use designation be applied to other properties in the vicinity? If so, the reasons supporting the change of several properties should be described in detail. If not, the reasons for changing the land use designation of a single site, as requested by the proponent, should be provided in sufficient detail to enable the planning commission and city council to find that approval as requested does not constitute a grant of special privilege to the proponent or a single owner of property.</p> <p><i>[Insert comments here]</i></p> <p>6. What impacts would the proposed change of land use designation have on the current use of other properties in the vicinity, and what measures should be taken to assure compatibility with the uses of other properties in the vicinity?</p> <p><i>[Insert comments here]</i></p> <p>7. Would the change of the land use designation sought by the proponent create pressure to change the land use designation of other properties in the vicinity? If so, would the change of land use designation for other properties be in the best long-term interests of the community in general?</p> <p><i>[Insert comments here]</i></p>
<p>Development regulations – Title 19 EMC</p>	<p>EMC 15.03.300(C)(4) The city may amend the text of the unified development code if it finds that:</p> <p>a. The proposed amendment is consistent with the applicable provisions of the Everett comprehensive plan; and</p> <p><i>[Insert comments here]</i></p> <p>b. The proposed amendment bears a substantial relation to public health, safety or welfare; and</p> <p><i>[Insert comments here]</i></p> <p>c. The proposed amendment promotes the best long-term interests of the Everett community</p> <p><i>[Insert comments here]</i></p>

Development regulations – Zoning map	EMC 15.03.300(B)(4) The review authority may approve an application for a site-specific rezone if it finds that:
Development regulations – Maximum building height map	<p>a. The proposed rezone is consistent with the Everett comprehensive plan; and <i>[Insert comments here]</i></p> <p>b. The proposed rezone bears a substantial relation to public health, safety or welfare; and the proposed rezone promotes the best long-term interests of the Everett community; and <i>[Insert comments here]</i></p>
Development regulations – Street designation map	<p>c. The proposed rezone mitigates any adverse impact(s) upon existing or anticipated land uses in the immediate vicinity of the subject property. <i>[Insert comments here]</i></p> <p>d. If a comprehensive plan amendment is required in order to satisfy subsection (4)(a) of this section, approval of the comprehensive plan amendment is required prior to or concurrently with the granting of an approval on the rezone. <i>[Insert comments here]</i></p>
