BE AN ALERT BIKE RIDER!

We hope this map helps you in choosing bike routes. But this map isn't a guarantee regarding route conditions. Many of the routes on this map are on public roads, which are always exposed to wear and tear due to weather, traffic and the environment. Regardless of what route you choose, you always need to be on the lookout for pavement rutting, cracks, bumps, expansion joints, debris on pavement surfaces, and vegetation. Of course, you also have to watch out for traffic. The City of Everett is not responsible if you get hurt on a bike ride. It's up to you to choose a bike route that fits your skills. And it's up to you to make sure that you ride safely.
